FIERA MILANO, RHO-MILAN-ITALY

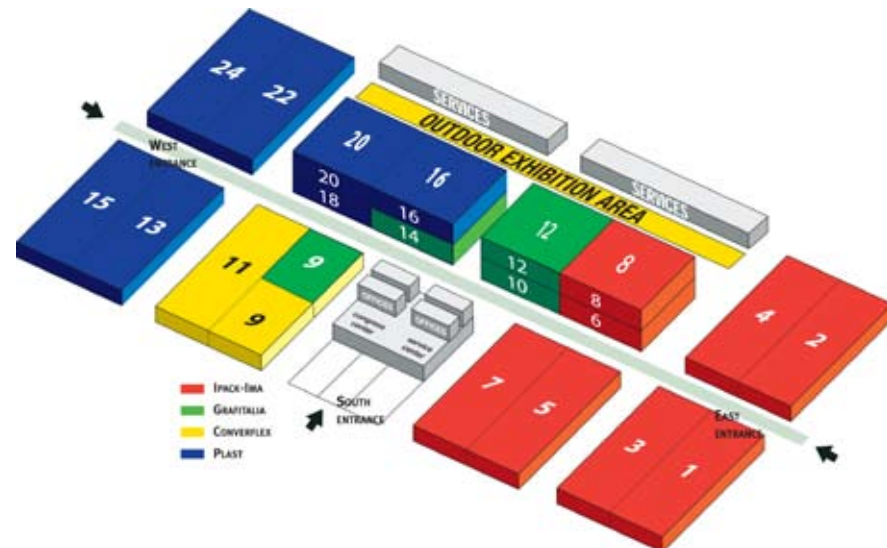

24 to 28 March 2009

IPACK-IMA broadens your horizons

First held in 1961, this exhibition is a powerful boost for trade exchange between suppliers of technology and material on one side and the industries that make use of the process and packaging technology on the other side. The 21st edition of this exhibition in 2009 will make Fieramilano the ideal stage for a unique technological event in Europe. IPACK-IMA will take place in conjunction with Grafitalia (Graphic Arts, Print Media and Communication) and Converflex (Package Printing and Converting). The entry badge to IPACK-IMA will allow you free access to the other two exhibitions: a unique opportunity to visit three shows with one ticket. In addition to these shows, PLAST, the trade fair of plastic and rubber material, will also take place during the same days and at the same venue

About Indian Institute of Packaging
